

#VISHAYBestSupplierAward

VISHAY Sfernice honours CeramTec as strategic partner and best supplier

Plochingen, November 2025

- **Award for excellent delivery performance and technological expertise**
- **Long-standing partnership with VISHAY Group as a success factor**
- **New projects planned between CeramTec and VISHAY**

CeramTec is one of the top suppliers for VISHAY Sfernice, a company of the VISHAY Group. The company ranks among the world's largest manufacturers of semiconductors and passive components. In October, a delegation from VISHAY presented the award at the CeramTec plant in Marktrechwitz.

Ceramic expertise as a strategic success factor

CeramTec has been supplying VISHAY Sfernice and other locations within the group with ceramic substrates and carrier bodies for electronic components for many years. As part of its 'VISHAY 3.0' strategy, VISHAY attaches particular importance to long-term cooperation with strategic suppliers. In this respect, CeramTec is a reliable technology partner with consistently high product quality, in-depth materials expertise and closely coordinated development cooperation.

Team performance and future prospects

For CeramTec, the award is a team success. 'This award shows that we are on the right track: we consistently put our customers first – every day a little more,' says Horst Garbrecht, President Industrial at CeramTec.

Further joint projects are being considered to build on the successes achieved so far.

About CeramTec

CeramTec has been a manufacturer and supplier of technical ceramics with a focus on advanced ceramic (HPC) solutions since 1903 and specialises in the development, manufacture and distribution of parts, components and products made from ceramic materials. With over a century of development and production experience in the HPC industry, CeramTec is a world leader in the manufacture of advanced ceramics and develops these materials for use in a wide range of applications. CeramTec's advanced ceramics are used in a number of areas, including medical applications such as hip prostheses, other orthopaedic implants, dental implants and medical devices, as well as in the mobility and electronics industries, and also in other industrial applications. With production sites and subsidiaries in Europe, North and South America and Asia, CeramTec has a global presence as a manufacturer and supplier. CeramTec's headquarters are located in Plochingen near Stuttgart, Germany. In 2024, CeramTec generated revenue of €746 million. CeramTec is a global employer with a workforce of nearly 3,800 people worldwide, including approximately 2,000 in Germany.
